PARIS, KENTUCKY, FRIDAY, AUGUST 11, 1905.

NUMBER 64.

Finis.

Within the next two weeks our magnificent illustrated history of Paris and Bourbon County will be ready for distribution. It is with a pardonable degree of pride that we say that this beautiful work of the printers and photographic art will excel anything of its kind ever issued in this section of the State. For the past three months we have been working steadily on this book. The success that we have attained is indeed gratifying, and we will be able to send broadcast over the country a book, that as a history, a commercial club, a "trade getter," and a means to set forth the advantages and resources of Paris and Bourbon county, that will be unequalled by anything ever issued in this State—not only will the facts be told in "cold type," but they will be proven by actual photographs—which don't lie. Our special editor, Mr. Jos. B. Borders, has just completed a trip through the county, his descriptions (by words and photographs) of the towns he has visited will be well worth reading and preserving. As we announced in the beginning of this project, "we will spare no time, money or pains in compiling this book," or have we done so, as will be proven by the book itself when issued.

To our patrons and friends who have so nobly and generously assisted us in the compilation of this enterprise, we wish to extend our thanks.

Bourbon county's past history is already too well known to be reviewed again. The history written by Mr. Borders will be of the county as it is to-day; its resources and splendid advantages which will be written in such a manner as to invite capital and immigration. To this end he is naturally adapted, having a quick perception, a clear insight coupled with the ability to write in such a manner as to cause you to feel as if you were traveling over the same territory with him.

NO ARGUMENT, the Walk-Over Shoe is the best.

Short-Change Artists and Burglars.

Two short-change artists visited our city Monday and started in to do a big business, but was called 'down by the first victims, Baldwin Bros., the butchers. They substituted a one for a ten dollar bill on these gentlemen and received \$9.90 change. One of the firm soon noticed the mistake and found the gentleman in one of our saloons and made him fork over. Not knowing he had worked the game on anyone else Mr. Baldwin turned him loose, but was unable to locate him again after finding out there were other victims.

They got \$4 from the firm of Shea & Redmon, and were unsuccessful in their attempts to work Ford & Co. and Laughlin Bros.

They are evidently still in the city, for on Wednesday evening they tried to work Mr. Geo. Davis out of change for \$20 bill. They must be the same parties, as Mr. Davis' description is same as others who had been touched.

On Wednesday night, burglars entered the residence of Mr. John Gass, by prizing open the shutters of his sleeping room and after taking his pantaloons to the yard and rifling the pockets, left. They only secured some small change which were in the pockets. Mr. and Mrs. Gass occupied the room, but were unconscious as to their midnight visitor.

Contract Let For State Building.

The contract price is \$880,000 and a bond of \$225,000 is to be executed for the completion of the work within two years from the date the contract is signed. The building is to be of stone from the Bedford, Ind., quarries, with a base of granite.

The Street Fair.

The street fair being forced off of the public square by an order of the Fiscal Court, pitched its tents in the city lot, on Seventh street, and are doing a big business. The attractions are all good. The great train robbery show is one of the interesting features of the carnival. The opening scene of this production shows the telegraph office of a lonely western station. The robbers climb through the window and at the point of a pistol compel the operator to send a false message, ordering the train to stop at a water tank. The train is seen to leave the station and the robbers, after sand bagging and binding the station agent are seen to board the train. The next scene is at the water tank and as the train pulls out they are seen to run out and board the engine. They attack the express car door, and the express agent, realizing the trouble, swiftly locks the safe and throws the key out of the door. By this time the robbers have blown open the car door, they attack the messenger, who tries to defend himself, but is shot by one of the bandits. They succeed in breaking open the safe and secure the booty. They next compel the engineer to stop and uncouple the engine upon which they make their escape after holding up the passengers. In the meanwhile the operator has been released by his little daughter, who found him when she came to bring his midnight lunch. The operator goes to a nearby saloon where some cow boys are conducting a typical Western dance. The dance is broken up and they all start in pursuit of the bandits. They overtake them in the woods and a desperate fight ensues. The robbers are all captured or killed.

PATRICIAN & SHOES & FOR WOMEN.

THOUSANDS of women can and will testify to the all-round wearing qualities of the PATRICIAN. Its nattiness in bulldog and 'varsity lasts sets off the jaunty outing costume to best advantage, while the lighter opera and full dress designs are exceedingly attractive for social wear.

Elegance of design and shape in the PATRICIAN Shoe suggests the first purchase. But once on the feet, the comfort afforded induces the purchaser to wear nothing but the PATRICIAN, no matter what the service. The PATRICIAN combines the qualities of a custom-made shoe with the economy of a ready-made product.

Paris, Ky., Friday, August 11, 1905.

It is very generally believed that the Equitable was pretty
thoroughly skinned before its Hyde was removed.

THE Topeka Journal man says that "nice, plump calves are
coming into the city." The old sinner should not be allowed
out on the street on windy days.

HAVE you noticed the fact that the men in public life who
are now being investigated or have been exposed are of the Re-
publican faith. The "grand old party" seems to have a monop-
oly on rascality.

THE United States has contracted for 11,000 pounds of ice
per senator for the ensuing fiscal year. The senators should
quit traveling such a hot pace and settle down to doing some-
thing for the people.

PROPERTY owners who have cleaned up their premises as
ordered by the Board of Health are feeling much more comfort-
able than do their neighbors who have neglected their duty. It
is strange that some people cannot realize that cleanliness pro-
motes healthfulness.

REALLY, it would be much better and more in the interest
of peace and sanitation if the Governor of Mississippi said to the
Governor of Louisiana that which the Governor of North Caro-
lina said to the Governor or South Carolina.

THE reported moody condition of John D. Rockefeller and
of his pining for human sympathy don't prevent him from gob-
bling up everything that comes his way. Only a few days ago
he picked up \$20,000 by cornering the flax seed crop. His re-
ported condition must only be a bluff, for it looks as if he would
much rather have money than friends or a good name.

THESE are days when the piratical acts of the great corpora-
tions are being told throughout the country. The fight among
the directors of the Equitable Life has ruined the reputation of
men who had stood as the embodiment of the highest and best
in American life; and the stories of Standard Oil and Amalgamated
have proved that the only thieves are not those who work
with the dark lantern and skeleton keys.

"An early change of government in Great Britain seems as-
sured," says an exchange, "and there appears to be some ques-
tion as to what will become of the alliance with Japan." Oh,
Great Britain will stick to Japan, especially as the Japanese
have demonstrated their ability to do their own fighting.

It has always been a rule with us not to deride a competi-
tor, but to talk about the best features of our own paper, and
we consider it a good rule if newspaper men would adhere to it.

The other day the Lexington Herald sent a solicitor to Paris.
He made our office his headquarters and we tried to show him
all of the courtesies. We happened to be out of the office when
this gentlemen happened in. While talking to one of our busi-
ness men this solicitor, not having met us, "buted right in"
and insisted on the merchant subscribing for the Herald, stating
that his paper gave more Paris news than any of the Paris
papers. We made ourself known and begged to differ with him,
and want to say now that the majority of the news in the Lex-
ington Herald from Paris can always be found in the Paris
papers before it goes to the Herald, and if we don't give you
more local news than this sheet you can have our paper for
nothing.

To say the least, it was rather shabby treatment on the part
of the representative of the Herald to canvas our city in the
manner he did, but if you think it will get you anything send
him back.

Most Wonderful Operation on Record.

[London Cor. Chicago Inter Ocean.]

There is a great deal of secrecy about the illness mentioned in the cable dispatches last week of Countess Telfener, Mrs. John Mackay's sister, but now it is known that Sir Victor Horsley performed on her one of the most wonderful operations ever conceived, much less executed.

For 20 years the Countess has been martyr to excruciating neuralgia. She tried every sort of cure in England and on the American continent fruitlessly. During the last six months her continuous pain was beginning to threaten her reason, and she agreed to submit herself to the knife.

It was such an appalling process that one of the nurses fainted, but to the great joy of all concerned it was pronounced a success.

First of all a piece of skull was sawed away. Then the whole brain was taken out and the nerve which caused all of the pain literally torn away. It was a fearful task, and it was with terrible difficulty that the nerve was disentangled from the brain, but Sir Victor's hand never shook the whole time, and with as much calmness as though bandaging a finger he replaced the brain, filled up the whole and sewed up the open scalp wound. Those who saw him declared that when he had finished and the patient was pronounced still alive he went white as death. He did not utter a word for some time.

This was quite a fortnight ago and Countess Telfener has not had the slightest twinge of the old pain since. Indeed, except for necessary attention and the inconvenience of the outside wound she is in wonderful health. When she has regained her strength sufficiently Mrs. Mackay will take her away into the country for a change of air. Meantime Mrs. Mackay is still staying on at Carlton House Terrace, seeing to all her sister's wants, attending her with untiring devotion.

Grave Trouble Foreseen.

It needs but little foresight to tell
that when your stomach and liver are
badly affected, grave trouble is ahead
unless you take the proper medicine
for your disease, as Mrs. John A.
Young, of Clay, N. Y., did. She says:
"I had neuralgia of the liver and
stomach, and my heart was weakened
and I could not eat. I was very bad
for a long time, but in Electric Bit-
ters I found just what I needed, for
they quickly relieved and cured me."
Best medicine for weak women. Sold
under guarantee by Oberdorfer, the
druggist, at 50c a bottle. aug

STOCK AND CROP.

—B. F. Buckley bought of John W.
Allison, 20 pure Southdown sheep, at
\$10 per head, for breeding purposes.

—Montana sheep owners have at-
tained their ideal—four pounds of
wool for a dollar. Twenty-six cents a
pound was paid for 100,000.

—Mr. Lewis Neale has purchased
the old T. D. Chenault farm near
Richmond, paying \$53,000 for same.
This is one of the best pieces of prop-
erty in Madison county.

—The average farmer keeps half a
dozen more horses than he needs, and
seldom stops to think that the best
statisticians figure that it costs about
\$38.75 cents per head per year to keep
them.

—Jos. A. Howerton, sold 22 fat hogs
to Hibler Bros., at 5 1/2 cents. He also
sold a bunch of nice lambs, average
94 1/2 pounds, to Jonas Weil, at 5 1/2
cents; and to Spears & Sons, 200 bar-
rels of corn at \$2.50.

—It is said that the crop of wheat
in Nicholas county is the poorest raised
in many years. Its grades from
fifty-two to fifty-four pounds to the
bushel, when it should grade sixty to
sity-two. Wheat is now selling in
Carlisle at 78 cents.

—According to Dr. Wiley, condi-
tions in Kentucky are not favorable
to the cultivation of the sugar beet to
an extensive scale. The experiments
were conducted at Lexington, and the
yield per acre was extremely low, be-
ing reported at 6.25 tons. The sugar
in the beet was equal to 9.05 per cent.
and the coefficient of purity was 73.
These percentages are low as com-
pared with the yields at stations in
Indiana and other States.

—Harry Weissinger, of Shelbyville,
suffered a serious mishap to his herd
of Aberdeen Angus cattle while un-
loading them at Harrodsburg, Wed-
nesday, to be taken to the fair
grounds, several freight cars were
backed up heavily against the ones
containing cattle and a number of the
finest cows being hurt, their limbs be-
ing broken. Jule Whitehouse, a
white man, and Sim Booker, colored,
attending, who were in the cars with
the cattle, were knocked unconscious
and thought to be seriously hurt.

Big Barn Burned.

Fire of incendiary origin destroyed
one of the large barns on the Elmen-
dorf Farm of J. B. Haggin, Wednes-

Three trotting horse were burned to
death.

Irving's Absentmindedness.

Sir Henry Irving can turn even his
peculiarities to account in story tel-
ling. Like any other man of affairs,
he had sudden and long periods of
absentmindedness. One day while
we were driving together he turned to
me and said:

"Marshall, I have a story you can
add to your repertory—a very quaint
one." Then he went into deep thought
and we had gone fully a block before
he spoke again. Then he said:

"And you know—"

Then he went another block, then
farther, but suddenly he asked:
"Now, wasn't that droll?" It cer-
tainly was, no matter, what it was, if
he said so, but he still owes me the
story, for he had told it only to him-
self.

other building material, let us figure

Yellow Fever "Foci."

The word "foci" as used in dispatches from New Orleans regarding yellow fever means centers of the disease. It is the plural of the Latin word "focus." There may be one or more cases in a focus. Of late the dispatches have given only the number of cases and not the number of foci. The fewer foci reported the better the indications are that the disease is under control.

A Curiosity.

In A. J. Winters & Co.'s show window will be seen a Slegomyia Fuscata, or in plain English a yellow fever mosquito. It was brought to the city yesterday by a gentleman, who had escaped from a quarantined Southern city.

Paris and Lexington Electric Line.

Hon. J. N. Kehoe and Mr. John Duley, of Maysville, President and Secretary of the Maysville and Paris Electric Railroad, met with the City Council last night. They showed the great benefits this city would derive from the road and asked for franchise to enter the city, the Council of course reserving the right to name the street they should enter on. We go to press before action was taken, but there was no doubt but what the franchise would be granted from the expression of several of the members of the board.

The above representatives of this road feel satisfied it will be built and the commercial benefit Paris will reap from such a road, will be hard to estimate. The citizens of our city who took the amount of stock asked for Paris are our most substantial business men, men that do not make any mistakes in placing their money and it makes us feel sure that this road will be built to a certainty.

Judge Smith's Court.

In Judge Smith's Court, Maggie Harris, colored, was fined \$31 for trying to wipe up the streets with a colored sister.

Dave Craig, colored, was given thirty days in jail for "swiping two measle little chickens," says Dave.

Called Meeting of Fiscal Court.

The Bourbon Fiscal Court will meet in called session to-day to pass on the granting of a franchise to the Maysville, Carlisle, Millersburg and Paris Electric Road. Franchises have been granted the road from Maysville to the Bourbon line, and no doubt the court to-day will grant the franchise from the Bourbon line to Paris.

DEATHS.

—Mrs. Martin Howard, nee Lillie Hume, daughter of the late Samuel Hume, died Tuesday at her home near Mexico, Mo. Her mother, who is now Mrs. John Forsyth, of Mexico, Mo., is here on a visit to her father, Mr. Washington Redmon. The deceased formerly attended school here and made her home with her uncle, W. P. Hume, of this city.

—Asa Dodge, aged 75 years, one of the wealthiest and most prominent citizens of Lexington died Wednesday night of general debility. He came to Kentucky penniless in 1850 and leaves an estate of \$175,000. It is believed he left his estate to his two nieces with whom he lived. After clerking for awhile in a dry goods store in Versailles, he moved to Lexington and entered the general insurance and real estate business, forming a partnership with J. T. Slade. They kept no books, but settled each evening after business hours.

—John A. Lafferty, aged 74 years, died at his home in Harrison county, Wednesday afternoon. He was the father of Judge W. T. Lafferty, of Cynthiana, and a prominent Knight Templar.

THE SECRET OF SUCCESS

"No, Sir! You cannot palm off any substitutes on me. I've been using August Flower since I was a boy, and I'll have no other."

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing! Isn't that a fine showing of success? Don't it prove that August Flower has had unflinching success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it is the best of all liver regulators? August Flower has a matchless record of over 35 years in curing the ailing millions of these distressing complaints. Two sizes, 25c and 75c. All druggists.

Powerful Hogs.

[Lecteur (Minn.) Cor. Chicago Chronicle.]

T. P. Schanch of this county is defendant in a queer lawsuit brought against him by V. M. Mach.

Schanch has a pasture adjoining Mach's premises and keeps a large number of hogs in it during the summer. There is on Mach's place, just on the line between the two pieces of land, a barn which was set upon posts about 18 inches from the ground. The ground slopes toward the pasture, so that the barn is higher on that side and the floor joists run crosswise with the building, their end coming up to the property line next to the pasture. During the recent hot weather the hogs crowded into the shade of the barn, broke the fence and crawled between the joists. There was a large number of them, about 60, and they were big and strong.

Mach soon appeared, and, seeing the hogs on his property set his dog on them. They could not get out fast enough by running along between the joist, the way they came in, and nearly all tried to get out the other way, by crawling under the joists and running straight back from the road, away from the dog.

There were so many of them trying to do this at once that with their combined strength they lifted the barn off its foundation and carried it several rods away on their backs, to the edge of a hill, down which the barn rolled, killing a dozen hogs and wrecking the barn at the foot of the hill.

Mach sues Schanch for the value of the barn and Schanch puts in a counter claim for the value of the hogs.

The Astute Lion.

John Burroughs, the naturalist, was laughing about the story, widely published not long since, of a wild duck that got a salt water mussel caught on its tongue and had intelligence enough to fly from the salt to the fresh water, where it dipped the mussel, sickening it through osmosis, and thus causing it to loosen its firm grip.

"I believe that story of the duck that understood the theory of osmosis," said Mr. Burroughs. "I believe it was simplicity as I believe the story of the crippled lion and the young lieutenant."

"Perhaps you have heard this story? No? Well, then:

"A young lieutenant, during an African campaign, came one day upon a badly crippled lion. The great brute limped over the tawny sand on three paws, holding its fourth paw in the air. And every now and then, with a kind of groan, it would pause and licked the injured paw."

"When the lion saw the young lieutenant it came slowly toward him. He stood his ground, rifle in hand. But the beast meant no harm. It drew close to him; it rubbed against him with soft feline purrs; it extended its hurt paw."

"The lieutenant examined the paw, and found that there was a large thorn in it. He extracted the thorn, the lion roaring with pain and he bound up the wound with his handkerchief. Then, with every manifestation of relief and gratitude, the animal withdrew."

"But it remembered its benefactor. It was grateful. And in a practical way it rewarded the young man."

"The lion ran over the regiment's list of officers, and ate all who were the lieutenant's superior in rank. Thus, in a few weeks, the young man, thanks to the astute animal, became a Colonel."

Later.—He died Wednesday night.

By the collapsing of a big department store at Albany, N. Y., Tuesday morning, it is estimated that from twenty to thirty persons lost their lives. The catastrophe appears to have been immediately precipitated by the sawing of a wooden floor beam, which caused the central pillar of the structure to give way. Over a hundred persons were caught in the debris, and after twelve hours' work of rescuers it was estimated that half the number still remained in the ruins.

Nine-Legged Fish.

[Reno (Nev.) Cor. Denver Times.]

State Comptroller Sam Davis, Warden John Considine, Attorney-General James Sweeney and Louis Beiver, all of Carson, have landed one of the queerest freaks in the fish line ever seen in Nebraska. It is neither fish nor animal, yet closely resembles both. It was caught in the Carson River, close to the Holstein ranch, by Mr. Davis.

It measures about 18 inches in length and has nine legs. It has a head, fin, gills and scales of the fish, but the nine legs are covered with fine downy hair.

No one has yet been found who can in any manner classify the strange freak.

Mr. Davis and his companies were fishing with the regular flies when the animal-fish sprang from the water and hooked on Mr. Davis' line. For 10 minutes a battle royal took place, the fish finally being landed on the bank nearly exhausted.

As he was about to pick up the strange creature, however, it began to walk away. It was not until then that the party noticed that the fish had legs. So taken back were the men that the strange creature came near escaping in a nearby alfalfa field. Unfortunately, both for science as well as for the curiosity of the party, the animal-fish was killed by the excited men in their efforts to capture it alive.

Mr. Davis, who, by the way, is one of Nevada's most respected citizens, states that in all his experience he has never seen a fish similar to the strange catch of the trio. From one who claims to have seen the freak it is learned that it is to be embalmed and sent to the Smithsonian Institute.

Two By Gen. Miles.

Gen. Miles is loaded to the muzzle with good stories. Here are some that he gave me one day in quick succession:

A ducky approached a fish stand kept by another ducky and asked: "Got any fresh fish?"

"'Cose I has. What you t'ink I's sellin'—shoes?"

"Oh, I knows you's sellin' fish, but is dey fresh?"

"'Cose dey's fresh. Hyah!—quit smellin' o' dem fish!"

"I ain't smellin' 'em."

"What you doin' den?"

"I's just whisperin' to 'em, dat's all."

"An' what you whisperin' to dem fish?"

"Oh, I's jus' askin' 'em how's all dey're relations dat they lef' in de ocean."

"An' what dey say?"

"Dey says it's so long since dey seen 'em dat dey forgits."

An Irishman said: "Last night at 2 o'clock in the mornin' when I was walkin' up and down the flure wid me bare feet on the oil cloth wid a cryin' child on aich arm I euddent help rememberin' that me father wanted me to be a priest, but I thought I knew better than he did."—[From "The Sunny Side of the Street," by Marshall P. Revenge.

The papers announce that an eastern spinster has left her former lover a fortune estimated at \$150,000, on condition that he obtained a divorce from his wife. The spinster was disappointed because he finally preferred another woman to her and takes her revenge by trying to separate them. At first it might seem that the revenge was aimed at her successful rival, but the man is really the one at whom the trust is made, for if he were so did enough to divorce his wife to secure a fortune he would soon become an object of pity, for the contempt of his neighbors would make life unbearable. But what shall we say of the revengeful spirit which affixed the condition of the bequest. Possibly she thought she loved the man, but true love shows itself in a different way.

If she had loved him as many have loved she would either have kept silent, or, if she wanted to leave him money, she would have left it for him to use to promote his own happiness and welfare. Her love was of the kind that leads young men to kill their sweethearts (when they have been rejected) and then kill themselves.

It is a selfish love—if love can be selfish—that prompts one to punish the object of his affection. Sacrifice is the language of love. "Greater love hath no man than this that he lay down his life for his friend"—but the so-called love which exacts a penalty has in it the element of revenge rather than genuine affection.

And revenge is the hardest load that anyone can carry. No one is strong enough to attempt such a burden, and no one can afford to risk its corroding influence on his life. This conditional bequest shows how cherishing revenge will warp a nature.

Coins two More Words.

Prof. Edward A. Ross, University of Nebraska, who coined the expression "race suicide," invented two new words last Friday in the course of a lecture before the summer students at the University of Chicago. Both of the new words are adjectives. He called our American life a "flap-doodle" and a "patent leather" existence, says the Chicago Examiner.

The professor was talking about race suicide, which, he averred, is sapping the vitality of the Nation. Here are some of the things he said:

Race suicide is the result of our too democratic institutions.

Large cities are an important cause of race suicide. City life makes celibacy comfortable.

Higher education of women is another cause of race suicide. The girl is a student when she should be a wife.

Social climbing or "patent leather life," is a cause of race suicide. Society women care more for social position than for children and sacrifice the latter to attain the former.

The so-called "higher classes" live a "flap-doodle" life of ease and indolence, which discourages the rearing of children.

And, continued Prof. Ross, the doom of the American race is not far distant if something is not done to remedy these conditions. Dr. Ross suggested these remedies:

Restriet immigration.

Teach women it is better to be a mother of five sons than the wisest or most famous of blue stockings.

Democracy has caused race suicide because it has given ever man a chance to rise in life and in the mad struggle children have been sacrificed as impediments.

NOW IS THE TIME TO GET WELL.

Nature Helps Mi-o-na Cure Stomach Trouble in Short Order.

The summer months are the best in the whole year for the treatment and cure of stomach troubles. The outdoor life, with natural exercise, the fruit and berries which are so freely eaten, all help to restore healthy action to the digestive organs.

Now when Nature will aid Mi-o-na in curing indigestion and giving strength to the stomach and whole digestive system, is the best time to use this remarkable remedy.

Taken before each meal, Mi-o-na will soothe and heal the inflamed and irritated lining of the stomach and solar-plexus, and strengthen the nerves of the digestive tract. Used at any time of the year, it cures all diseases of the stomach excepting cancer, but in the summer months it gives health

and strength twice as quickly.

If you suffer with headaches, indigestion, flatulency, spees before the eyes, fermentation, heart burn, dizziness, or have a variable appetite, and a general feeling of despondency or weakness, it shows clearly that the stomach is not digesting the food as it should. Instead of the food being assimilated and making rich, red blood and good solid flesh and muscle, it is turned in the stomach into a sour, slimy, fermenting mass that causes gases, distress after eating, and poisonous germs that fill the whole body with poor health.

Just one little tablet out of a 50 cent box of Mi-o-na for a few days, and all this will be changed for the better, and health restored. Ask Clarke & Co. to show you the Mi-o-na guarantee.
